SUPERIOR QUALITY
Producción en México

When it comes to fasteners, **MAGNUM®** is a name that is synonymous with quality and reliability. With a history rooted in innovation and a commitment to excellence, we have become a **trusted partner** for professionals across industries.

The story of **MAGNUM®** begins in 1987 when **MID-CONTINENT STEEL AND WIRE®** started manufacturing nails in response to the need for machine-quality bulk pallet nails in the recently automated pallet assembly process. Today, we are one of the **largest nail manufacturers in the United States**, serving various industries, from pallet and crating to residential construction, always upholding our commitment to excellence.

Our fasteners undergo rigorous testing, ensuring they meet the **highest standards**, and our state-of-the-art facilities employ cutting-edge technologies. As a division of **DEACERO Group**, we focus on eco-friendly steel production, minimizing CO² emissions. As a result, we have achieved one of the **most impressive decarbonization rates in the world**.

MID-CONTINENT STEEL AND WIRE® takes full responsibility for every step of the manufacturing process, ensuring premium quality, transparency, and sustainability. With over **35 years of experience**, we're poised to lead the fastener industry into the future.

Our **MAGNUM®** Fasteners meet the stringent standards of building code compliance through the ICC report, **National Design Specification (NDS)** requirements, and as referenced by the **Uniform Building Code (UBC)**, **International Building Code**, and **International Residential Code (IRC)**. We are members of industry associations like **STAFDA** and **ISANTA**.

MACHINE QUALITY BULK

ITEM CODE	DESCRIPTION	POINT	SHANK	FINISH	NAILS/CARTON
15	1 3/4 X .113	NP	SCREW	BRT	50 lb
19	2 X .113	BDP	SCREW	BRT	50 lb
20	2 X .113	NP	SCREW	BRT	50 lb
30	2 1/4 X .113	NP	SCREW	BRT	50 lb
29	2 1/4 X .113	BDP	SCREW	BRT	50 lb
40	2 1/2 X .113	NP	SCREW	BRT	50 lb
16	1 3/4 X .120	NP	SCREW	BRT	50 lb
44	2 1/2 X .120	NP	SCREW	BRT	50 lb

Serving as essential components for securely **assembling machinery, structures, and various industrial equipment.** They are typically used in the **construction of pallets, crates, and boxes.**
